

SMART INDIA HACKATHON 2026

SMART INDIA
HACKATHON
2026

- **PROBLEM STATEMENT ID** – SIH 26208
- **PROBLEM STATEMENT TITLE** -
STUDENT INNOVATION- Challenge your
creative mind to conceptualize and develop unique
toys and games based on our civilization, history,
and culture etc.
- **THEME** - Toys and Games
- **PS CATEGORY**- Software
- **TEAM ID** – SIH26-A0H-T171
- **TEAM NAME** - TECH NOVA

HERITAGE QUEST: THE LOST LEGACY

PROPOSED SOLUTION

- A game where history fights back to be remembered.
- Every site hides a secret, a puzzle, a price to pay.
- Crack it → earn Heritage Points.

HOW IT ADDRESSES THE PROBLEM

- Turns textbooks into treasure hunts.
- Rescues the stories India forgot to tell.

INNOVATION & UNIQUENESS

- Play it. Learn it. Rebuild it.
- Heritage Restoration System - your points, its second life.
- Not a game about heritage -- a rescue mission for it.

TECHNICAL APPROACH

GAME FLOW

- Unity + C# — Game development & gameplay logic.
- Blender — 3D heritage assets and environments.
- Firebase / SQLite — Player progress, scores & game data.
- Unity UI — Interactive menus, maps and challenges.

IMPLEMENTATION

- **Design core loop** → claim land, cultivate, collect resources, make a decision.
- **Build grid/territory logic** → basic click-to-claim mechanic.
- **Add one working decision event** → e.g. tax demand with visible consequence.
- **Connect resource counters** → food/coins update based on player action.
- **Test the loop end-to-end** → ensure it runs without bugs for the demo.
- Package as a playable build (Web or APK).

FEASIBILITY AND VIABILITY

○ FEASIBILITY

- Built with accessible, industry-standard tools.
- MVP: 2–3 playable heritage locations to start.
- Modular design — new locations add easily, no rework.

○ CHALLENGES

- Maintaining historical accuracy.
- Keeping gameplay fun without losing educational value.
- Building quality assets within limited time.

○ MITIGATION

- Expert-verified heritage content.
- Prototype → Test → Improve cycle.
- Reusable mechanics + content kept separate from game logic.

IMPACT AND BENEFITS

O IMPACT ON STUDENTS:

- Turns *history class into a hunt* — learn by exploring, not cramming.
- Improves curiosity, problem-solving and cultural awareness.

O IMPACT ON ADULTS:

- A nostalgic yet engaging way to rediscover Indian heritage.
- Encourages *exploration of stories and places* beyond popular attractions.

O CULTURAL IMPACT:

- Brings lesser-known heritage, traditions and stories into the spotlight.
- Builds awareness about the importance of *heritage preservation*.

O SCALABILITY:

- Every state, monument, and legend = *a new level waiting to be built*.
- Next stop: schools, museums, tourism — *heritage, gamified nationwide*.

RESEARCH AND REFERENCES

- **Archaeological Survey of India (ASI)** — Monument and archaeological information.
- **Ministry of Culture, Government of India** — Cultural heritage and preservation resources.
- **UNESCO World Heritage Centre** — Heritage sites and conservation information.
- **Incredible India** — Indian destinations, culture and tourism references.
- **State Tourism / Heritage Departments** — Region-specific historical and cultural information.
- **User Research** — Feedback from potential student and adult players.
- **Prototype Testing** — Gameplay usability, engagement and learning feedback.
